

# MotherGooseCaboose.com - CHRISTMAS MASK.

Directions: Print out the mask. Color. Laminate or paste on card stock. Cut out the mask and eye holes along the black lines. To make the holes for the mask ties, place the mask on your face and measure on the mask above the ear so the string or yarn will fit over the ear. Punch holes. Tie string or yarn tightly in place through the each hole. Now the mask is ready to wear.
